

## Introduction

Since the establishment of Chronolink Foundation in December 2022, our team has pursued its **mission** to improve the community by providing access to medical services and therapies for children suffering from autism spectrum disorders.

**With the support of our partners**, we have maintained a long-term commitment to help those in need.

**Our vision** becomes clearer and stronger with time; we understand better the essential connection between those who wish to help and the children and families who need our support.

## Achievements and Events

Over the past year, the Chronolink Foundation has made significant strides towards its mission, with the financial support of **85 children in the Mioveni area** in Romania being our foremost achievement. Our consistent funding for Applied Behavior Analysis (ABA) and psychotherapies has led to substantial progress for all these children, a testament to the transformative power of continuous and focused support.

One remarkable example is a child with severe autism disorder. Initially nonverbal and struggling with social interaction, this child, thanks to the relentless efforts of our therapy team and the hours of therapy we funded, has made extraordinary progress. He now communicates more effectively, engages more with his peers, and has even started attending school. **This success story underlines the potential every child with autism holds and the positive impact our interventions can have.**

## Achievements and Events

In addition to these ongoing efforts, we also marked our calendar with several significant events aimed at not only providing enriching experiences for the children we support but also raising community awareness about autism. We organized a **Cinema Day** and a **Full Day at a Sensorial Garden** for children coming from Mioveni and children from Bucharest.

To celebrate **World Autism Awareness Day** on 2nd April, we joined hands with the children and our collaborative center in Mioveni for a walk through the town. This event raised local awareness about autism and underlined the vital importance of societal support.

On **Christmas**, our team visited all 85 children we support, bearing presents and spreading holiday cheer. This event was about more than just gift-giving; it was an affirmation of our ongoing commitment to these children and their families.

## Achievements and Events

Separate from our primary mission, but in alignment with our **core values of compassion and community support**, we also extended aid to the survivors of the earthquakes in Syria and Turkey dated February 2023. We provided tents and blankets, a small but necessary gesture to help those enduring such challenging times.

These achievements and events reflect our commitment to making a lasting, positive impact on the communities we serve. Looking ahead, we aim to broaden our reach and deepen our impact, **transforming more lives and uplifting more communities.**

## Financial Overview

**We're thankful** for the generous contributions we've received over the past year. This financial support along with our founders' resources has been essential in making our activities possible and providing consistent support to children in need.

**To achieve our goals**, we need not only sponsors, but also specialists in the fields in which we are involved: ABA therapies, speech therapy, physical therapy and sensory integration. Facing many challenges, we must be united so that we act as a strong team, being able to provide full support both at the beginning of the therapy and along the way, when **our help becomes essential** in the positive development of the child.

---

## **Our Partners**

We would like to express our profound gratitude to our partners who have shown unwavering commitment to our cause. These include:

**Vista Bank**

**Atlas Corporation**

**Lebada Residency**

**Aspis Food**

**Rei Development Services**

**Admiral**

**Novomatic România**

Through their valuable support, we've been able to make a difference in the lives of many children.

## Challenges and Future Plans

Despite our achievements, we faced some challenges during the past year. The most significant was engaging more **companies to support our cause**. We understand that change requires time and effort, and we remain committed to our mission.

Looking forward, we are excited about our plans to expand our support to **two more therapy centers** within the year 2023.

**Our vision** is to reach out to as many children as possible, providing them the support they need to thrive and reach their potential.

## **Conclusion**

We want to thank everyone who has supported us during our first year. Your support has changed lives and given hope to many families. As we look forward to the coming year, we invite more individuals and companies to join us in transforming our community for the better.

**Kindness brings people together**
